

Solve your **key management** problem while increasing **PVR**

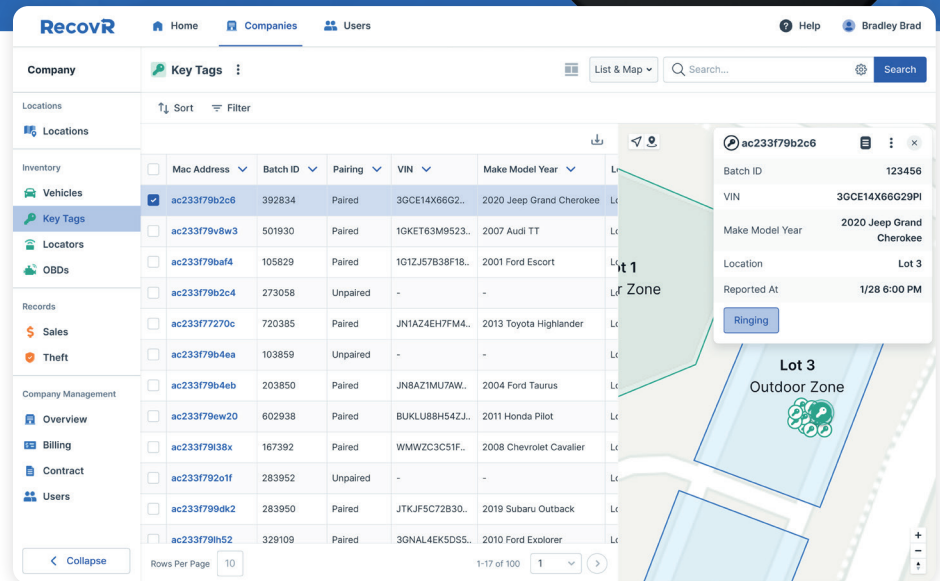

1

FOR YOUR DEALERSHIP

Smarter Key Inventory Management

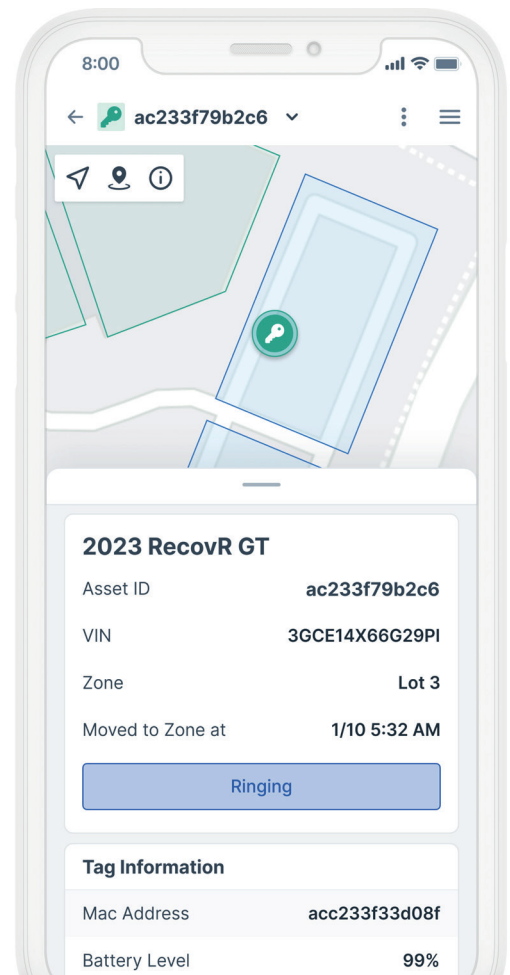

Monitor your vehicle keys and get notifications when keys are misplaced using our Web Apps.

- **Sales** - Shorten the sales cycle and improve customer experience by finding the keys you need faster. Impress potential buyers with a high-tech solution they'll love.
- **Operations** - Let your teams focus on selling and servicing customers, not on hunting for keys.
- **Profitability** - Cut the costs associated with lost and misplaced keys and add great, non-cancellable F&I revenue to your bottom line.
- **Integrations** - The RecovR solution is fully integrated with the RecovR for Vehicles solution (portal, web and native apps). Optional integration with your Dealer Management Systems (DMS) provides all data on a single screen.
- **Inventory** - Resolve discrepancies and know where all vehicle keys are at any time. Receive location guidance (distance and direction) to any key using your mobile device.

A trusted solution from the maker of the RecovR Vehicle Theft Recovery & Lot Management Solution

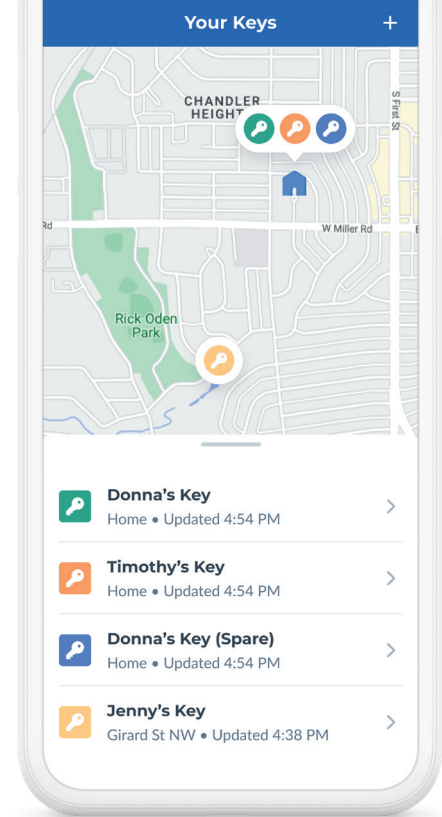

Key Finder technology bundled with a Key Replacement Limited Program

Consumers can use the existing RecovR mobile app to spend less time searching for their lost or misplaced vehicle keys.

- **Key Location Radius** - The app indicates the area keys are in, then a light and audible alert on the tag make them easy to find.
- **Key Replacement** - Customers enjoy guaranteed key replacement and road assistance benefits, all for a one-time payment.

 All with state-of-the-art security technology that guarantees consumer privacy.

HOW IT WORKS

Attach and go!

- Battery-powered, rechargeable, attached to the vehicle key or key fob.
- No technical install required.

WORLD-CLASS SERVICE & TECHNOLOGY
